SWAIM'S PANACEA has been for more than 30 years celebrated in this country and in Europe for its extraordinary cures, for the certificates of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others by
... Gibson, M. D., Professor of Surgery, Pa. University.
Valentine Mott, M. D., Prof. of Surgery, N. Y. University

Gilbert Robertson, British Consul, &c. &c.

And, also, the wonderful cures effected by Swaim's Panacea, have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles or $4

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass

"SWAIM'S—PANACEA—PHILAD."
and having the name Jas. Swaim, stamped on the sealing wax, and written on the label covering the cork; and a splendid engraving for the side of the bottle, composed of a geometric lathe work, comprising nine different ... lies, which have been turned for the exclusive use of the Proprietor, by Draper & Co., bank note engravers, of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copy right secured

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c. &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge.

BUILDING LOTS,

SITUATED in the Northern suburbs of this city, several fine building lots, and offered for sale on reasonable terms; apply to
LEVI JOHNSON.

Any person wishing to purchase building land in this city, would do well to call on the subscriber of whom information can be had free concerning a lot of several acres which can be bought very reasonable, and I have no hesitancy in saying that this chance cannot be found again in the vicinity of Newport, as its cheapness, quality of land, beautiful prospect, &c., cannot be equalled. NEWPORT.

BY CRANSTON & NORMAN

144 THAMES STREET.

MONDAY MORN'G, AUG. 27, 1855.

WANTED, two boys about 15 or 16 years of age of steady habits, to learn the Printing business; apply immediately at the Daily News office. jy13

☞ The grand Concert by Madame Anna de la Grange will take place at the Dining Hall of the Ocean House, to-morrow evening. Great preparations are being made, and it will undoubtedly be a very brilliant affair. Tickets for secured seats $2, can be had of F. B. Helmsmuller, at the Ocean House.

☞ We learn that a man named Patrick Callahan, of New York, a deck hand on board the Propellor Westchester, fell overboard on Friday evening, about five miles East of Watch Hill Light, and was drowned.

☞ "Day Dream Polka," as performed by the Germania Musical Society, at Newport, R. I., composed by F. B. Helmsmuller, is the title of a new piece of music just published; for sale by A. J. Ward.

☞ There will be a grand Hop at the Atlantic House this evening.

☞ The next lecture by the Rev. James C. Richmond will be delivered at the Ocean Hall this evening.

☞ On and after to-day the steamer Water Lily will leave here at 2, instead of 2 1-2, as heretofore.

☞ Disraeli calls one of Brights long speeches against the war "a Pacific Ocean of words"

☞ Mr. Wm. D. Terry, bank note engraver, and the inventor of the iron pavement laid in Court st., Boston, died in that city on Saturday.

Horatio N. Wilde, eminent as a council and cough candy man, has been nominated by the 5th Ward Know Nothings of New York for the State Senate.

In Cincinnati, last Sunday, a German theatre, giving "Sunday Concerts," was entered by the police, and actors and musicians, ten in number, walked off to jail.

UNPAID LETTERS.—By a law of the last Congress the transmission of any letters upon which the [illegible] have been sent from the post-office of this city. Though the matter was published in all the journals of the city there are still those who are ignorant of the law, and daily large numbers of unpaid letters are dropped at the office. From the first instant up to noon of yesterday there were three hundred and eighty-four lying in the post-office, all of which will be sent to the dead letter office at Washington. The average is upwards of nineteen per day.—*Baltimore American.*

THE FUNERAL OF ABBOTT LAWRENCE, took place in Boston on Wednesday. The services were performed by Rev. Dr. Lathrop, at Brattle Square Church, and were attended by a large number of citizens. Many stores throughout the city were closed, and during the progress of the procession to Cambridge bridge on the way to Mount Auburn, the church bells were tolled, and minute guns were fired on the Common.

HEROIC.—Miss Lucy E. Andrews, of Syracuse, N. Y., arrived here yesterday morning and tendered her services to his honor the mayor, as a nurse in the hospital. Miss A., is a very pretty young lady, whose philanthropic spirit has prompted her to this noble sacrifice of self. His honor promptly accepted her services and as promptly escourted her down to Jalappi, where she was duly installed. Miss A., made a contribution to the Howard fund.—*Norfolk Beacon.*

The Albany *Knickerbocker* says that during the month of May, forty-nine locomotives on the Central Railroad, use up over a thousand gallons of oil. This is equal to ten hhds. This oil costs about $2 per gallon—which shows that to keep a locomotive properly greased for one single month uses up about $40 worth of oil.

SINGULAR SUICIDE.—The Toronto *Globe* learns that on Wednesday last a young man a stranger, went around Coburg and regularly summoned a Coroner's Jury to meet at the house of Mr. Brody, Coroner, at 12 o'clock that day. At the hour appointed he came himself at the kitchen door of Mr Brody's house, entered and proceeded deliberately to a table, opened the drawer, and taking out a case knife therefrom, drew it across his throat. He then started up stairs but fell near the top, and expired before help could be obtained. He is supposed to belong to Montreal and came last from Port Darlington.

Naval Apprentices.—The Washington *Star* understands that the Navy Department have, *temporarily*, suspended the enlistment of apprentices for the Navy—900 have been obtained, and there being accommodations on the receiving ships for no more. The ships *Potomac*, *Congress* and *Constellation*, which vessels have recently gone on cruises, took forty each. The *Susquehanna*, *San Jacinto*, and *Merrimac* will, probably, go to sea (and possibly other United States ships,) before the beginning of the new year, and will take as many more, when further enlistment of apprentices will be made. The system, so far, works admirably, and continues to be full of promise of future usefulness. It is expected that more or less of these lads, on returning from their cruises of three years, will be good ordinary seamen, and seamen which will make a demand for more such apprentices. The system can hardly fail to man our ships of war with real American seamen in due time.

A GALLANT GENERAL.—While the attack on the Memelon was going on, an English lady, the wife of one of the officers was present, and displayed great coolness and courage. Gen. Pennefather observing this, went up and cut off a medal from the coat of a dead Russian officer, and in the most gallant manner, and with a very pretty compliment, pinned it on her shawl, saying she had fairly earned it. The General is a great favorite with the army; and the lady who has great personal attractions, and is the the daughter of an old General Officer, highly prizes this medal, which she literally obtained on the field of battle.

☞ The N. Y. Medical *Times* says that seven young and fair looking women may be daily seen at the New York Hospital, following the physicians and surgeons on their rounds and are present at all operations on males and females.

Miss Eliza Logan, the actress, writes to the New York Herald that she is not married, and that the rumour of her nuptials is false.

Very few people or even builders, are aware of the advantage of wetting bricks before laying them, or if aware of it, they do not practice it; for of the many houses now in progress in this city, there are a few in which wet bricks are used. A wall twelve inches thick, built of good mortar with bricks well soaked, is stronger in every respect than one sixteen inches thick built dry. The reason of this is, that if the bricks are well saturated with water, they will not abstract from the mortar the moisture which is necessary to its crystalization; and on the contrary, they will unite chemically with the mortar, and be[illegible] immediately take all the moisture from the mortar, leaving it to dry and harden, and the consequence, that, when a building of this description is taken down or tumbles down of its own accord, the mortar from it is like so much sand.—*Scientific American.*

A CHILD SAVED BY A DOG.—As one of the city cars was passing down Fulton st., New York, Monday morning, a lady with a little girl attempted to pass in front, the child being a head. Before the driver could hold up, the child was nearly under the horses' feet, when a large Newfoundland dog seeing it bounded to her, and, taking her in his mouth, rescued her from imminent danger of being trampled to death, brought her to the almost distracted mother, and laid her down. He looked up and wagged his tail and gave a short bark expressive of his delight, and away he went.—*New York Sun.*

LUXURIANT PARIS.—Greeley says of Paris:—"France, or rather Paris, is preeminent in all the arts which minister to luxury and sensual delight. I need not speak of all that pertains to costume, wherein this is notoriously the world's metropolis, the Vanity Fair of Christendom: but the display in the Palace of gems, jewelry, gold and silver ware, bronzes, tapestry, porcelain, cut glass, stained windows, paper hangings, &c., is beyond trans-Atlantic conception. The brain reels and the eye is dimmed by the sheer fatigue and bewilderment induced by wandering and gazing for hours from case to case, and from court to court, of such dazzling objects as Aladdin never dreamed of."

A TOUGH STORY.—The Louisville Democrat is responsible for the following:—

"We were told this morning a rather tough tale about a field of wheat up the country.—The stalks were wedged so closely together that the wonder was how they managed to grow at all. The owner, just before cutting, was standing on a stump in the outer edge of his field, looking over the vast expanse, when the wind blew his hat upon the top of the wheat. He wanted his hat of course, and to get it must needs go into the field. He made an effort to get down without breaking much, when he found, to his utter amazement, that the growth was so thick and heavy he could crawl upon the top of the crop, with no more yielding beneath him than if he were on a spring mattrass or a heavy feather bed. And he crawled until he got his hat, and then back again—perhaps walked back; we are not certain on that point.

BY TELEGRAPH.

COLUMBIA, OHIO, Aug. 22.

CATHOLIC CHURCH BLOWN UP.—The Catholic church at Sidney, Shelby county, was blown up with powder on the night of the 18th, and is a mass of ruins. There was considerable excitement in the Town, the crime being laid to the Know Nothings. A reward had been offered by the council, and a meeting of the citizens was to be held to express their sense of the outrage.

SPURIOUS NOTES.—Bills of the Milford Bank, Delaware, which failed some time ago, altered so as to purport to be issued by the Milford Bank, Massachusetts, the word Massachusetts being pasted over the word Delaware, have been put in circulation.

A SUICIDAL MONKEY.—The Springfield Mass., *Republican* must be held responsible for the following:—

"A gentleman of West Harwich had occasion last week to chide a pet Monkey; the animal was so chagrined that he went directly to an out-house and hung himself."

"Give us American politics and American religion."—*Kenneth Raynor.*

We don't know of any American religion, except Mormonism, Shakerism, and Millerism. These are native American religions. The Christian religion, we believe, is of foreign origin, and its founder not a native of America.—*Terre Haute Journal.*

Gerrit Smith closes a letter to Horace Greeley with the following hit:—

"I close with thanking you for your wish that I may live long to improve myself. Be assured that I reciprocate the kind and generous wish, and that I do so all the more cordially because you are in such special need of improvement."

TREVORTON COAL.
THE subscriber offers for sale by the cargo or single ton, the Trevorton Coal; this Coal is semi-anthracite, its combustion takes place from the outside, feeding the fire with small particles constantly falling from it in cubes. In this particular it is unlike any other coal yet discovered in this country. It emits a beautiful flame free from smoke,—produces no clinker and much less ashes than any other coal. It works as easy as a wood fire and will endure as long as the hardest anthracite coal. Grates 1-2 inch air space is best adapted for its use. More economy can be produced by the use of this coal than by any other ever offered to the public For sale by J. W. SHERMAN.

HOLLOWAY'S PILLS.

WHY ARE WE SICK?

It has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are specially adapted to the relief of the WEAK, the NERVOUS, the DELICATE, and the INFIRM, of all climes, ages, sexes, and constitutions. Professor Holloway personally superintends the manufacture of his medicines in the United States, and offers them to a free and enlightened people as the best remedy the world ever saw for the removal of disease.

THESE PILLS PURIFY THE BLOOD.
These famous Pills are expressly combined to operate on the stomach, the liver the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

DYSPEPSIA AND LIVER COMPLAINTS.
Nearly half the human race have taken these Pills. It has been proved in all parts of the world, that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to these organs, however much deranged, and when all other means have failed.

GENERAL DEBILITY. ILL HEALTH.
Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses. Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail, to afford relief.

FEMALE COMPLAINTS.
No Female, young or old, should be without this celebrated medicine It corrects and regulates the monthly courses at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint; consequently no family should be without it.

Holloway's Pills are the best remedy known in the world for the following Diseases:

SOAP! SOAP!!

THE subscriber is now prepared to furnish the highly celebrated American Cream, American Laundry, American Manufacturers' Soap, and Cream Soap preparation. These soaps are presented to the public with the fullest confidence in their superiority and utility. A fair trial according to the directions given below, cannot fail to be entirely satisfactory; and an argument more conclusive than pages of certificates and recommendations. A fair trial is all I ask. These soaps do the work of the Laundry in the best manner in cold water, either hard or soft, or salt, dispensing entirely with boiling, pounding, washing machines, &c., without injury to the most delicate fabric. In cold weather, health may render it advisable to take the chill off the water.

The tendency of these soaps is to soften the clothes and loosen the hold of the dirt, without injury.

DIRECTIONS FOR USE.—White Clothes—Rub the soap freely on all soiled spots, make a strong suds in water, sufficient to cover, soak a few hours, or all night if convenient, when with a common hand rubbing and thorough rinsing, they will be perfectly clean and beautifully bleached.

Calicoes and other colored articles, wash without soaking and rinse.

Woolens—Wash in warm suds (to prevent shrinking) and rinse.

Merinoes, Silk Velvets, Silks, Ribbons, &c. Wash in strong suds and rinse.

SPRATT'S LIGHTNING RODS!

WITH branched and other points made of pure copper and gilded with fine gold, all of which are warranted to preserve the extremity sharp and bright. Eight times as good a conductor as a spurious imitation made of Cast Iron, and sold last year by some dealers in Lightning Rods.

Also, Fixtures for a new and valuable improvement in applying Insulators by which the glass is kept dry, causing no leaks in roofs of buildings, and effectually preventing the Electrical Fluid from being conducted by iron screws and drives into the seen

The following recommendations have been furnished gratuitously—

Louisville, Jan. 27, 1851.

The Lightning Conductors on the plan of J. Spratt, of Cincinnati, appear to be very well devised, and in point of mechanical construction, are the best I have ever seene.

It is to be hoped that the use of these rods may become general as an important auxiliary defence against a danger which must be regarded as of no ordinary magnitude, to which all buildings are liable.

B. SILLIMAN, Jr.
Prof. of Chem. in the Univ. of Louisville.

This will certify that I have examined the Lightning Rods, Metallic Points, and Insulating *Attachments*, manufactured by Mr. Spratt, of Cincinnati, Ohio, and regard them as constructed in conformity to the general laws of the electric fluid; and the Gilded Copper Branched Points, as promising, from the results of several tests to which they were submitted, to resist for years the action of those atmospheric causes most likely to corrode them.
